AMENDMENT

Sir:

In response to the Office letter of 9/11/03, please amend the above-identified application as follows:

In the Specification:

Please replaced the originally filed specification with a new specification enclosed herewith.

In the new specification please amend the brief description of drawings as follows:

~~Fig~~Figs. 1A-1H are front elevational views ~~Is an elevation showing straight pin and some possible shapes of Pin Weights including, in Fig. 1D, two parallel pins and, in Fig. 1F, a weight or float with a pin extending from each end, with one. One pin longer than the other, with the longer. Longer pin is to be inserted forward in a bait. Pin barbs are optional.~~

~~Fig. 1a Is same elevation attached to the pin is buoyant and permanently bonded to the blunt end of a straight pin. Additional shapes are also exhibited.~~

~~Fig~~Figs. 1b-1I—1L are front elevational views of ~~Shows a views of a Pin FloatFloats, with Figs. 1J and 1K having two pins to hold to a lurethis particular design more securely. The two pins straddle the fishhook and make it much easier to place and secure.~~

In the new specification please amend the detailed description as follows:
